There is adventure in sound...

Since 1984, the Atlanta Radio Theatre Company has been performing, recording, and broadcasting dramatic audio - fully dramatized, fully sound-scaped audio drama. We set the scene. We give you voices, sound effects, music, and ambient atmosphere. In your imagination you build the sets, you give faces to the voices, you design the costumes.

This is the "Theatre of the Mind," as practiced in the Golden Age of Radio. By combining today's modern technology and dramatic techniques with the oldest form of entertainment, the human imagination, you have the best seat in the house for the most vivid movie you will ever see.

If you enjoyed today's program...

Director's Notes

ARTC has been performing for Atlanta Audiences for twenty years. Twenty years ago, incidentally, I was making my first forays into theatre. Yes I was only nine, but my love for performing was burgeoning. I am glad to have found an outlet in Radio Theatre, an entertainment that begs you, the audience, to become more than just passive listeners. You become a part of the action in the Theatre Of The Mind.

Before you today, you will find some of the most heard pieces in the ARTC compendium of audio drama; pieces such as *Bumpers Crossroads* and *Rory Rammer, Space Marshall*. We are also introducing our newest writers with the world premieres of *Cautionary Tales For Grownups* and *The House Across The Way*. The people before you have grown to love Radio Theatre as it touches the mind and lets your imagination blossom with endless possibilities. We are hoping to bring this art form to you more often in the near future with shows at local theatres.

I believe it is no coincidence that my entry into audio drama production comes on the twentieth anniversary of the longest running Radio Theatre troupe in Atlanta. Maybe with a little luck some talented nine-year-old in our audience today will feel the spark of a living dream and pursue it to become the future of this amazing art form.
